

The 'Brrrr' weather we hope is over for we are seeing bulbs coming up and geese flying north!! This winter was a guess as to whether we would get out of the drive way or not because of the snow but thankful there were not too many days of that.

Time is winding down as we are planning for the upcoming spring and summer mission trips.

Dick is planning another trip to Bolivia in April to work with the Boat Ministry. They will be fabricating and installing 20 bunks which are very much needed, upgrading the bath room and electrical system on board the riverboat.

There will be another team going early to work on the missionary guest house where the boat is docked. We sent a crate with all the equipment this week so pray it arrives safe. Please continue to pray that the team members required support comes in.

In May-June Dick will be taking a team to Nicaragua to continue in helping the Miskito people with the completion of their block homes by constructing and installing trusses and metal roofing on the houses they have ready. After Hurricane Felix hit there in late 2007, FRIENDS promised the government to finish 20 new homes a year for the next five years. There has been 39 completed and the people are extremely thankful and praising the Love of God for His provision.

The Bolivia and Nicaragua trips are mainly for fabrication and construction teams of men, so we ladies are not needed but to keep the home fronts in running order this time!!

**FIA in Missouri; Purchasing, Shipping, Hospitality and Medical Ministries** are steadily working in supporting the missionaries on the field. Although we have had some good snows this winter the needs are still being met as the requests come in. Pray for our staff and families as some are under doctor's care and as we see the years quickly advance upon us the visits become routine. Thanks to our Savior who sees us through each day and we thank each of you for your prayers, love and support as you become part of the team in fulfilling the Great Commission.

*Our families are all doing very well. Two of the girls are coming to help me celebrate my birthday next month since Dick will be in Bolivia. Taking them down to Branson to see a couple of shows and then just enjoy being together!!!*
